LITTLEMORE ASYLUM,

SUPERINTENDENT'S REPORT

FOR

1859.

WITH

STATISTICAL TABLES.

LITTLEMORE ASYLUM.

[*comprising an Union of the Counties of Oxford and Berks, the City of Oxford, and the Boroughs of Abingdon and Reading, for the maintenance of their Pauper Lunatics.*]

At the first meeting of the Committee of Visitors of the PAUPER LUNATIC ASYLUM at LITTLEMORE appointed for the Year 1860 held at the Asylum (pursuant to due notice) on Wednesday the 25th day of January 1860 (being within one Calendar month after the election of the present Committee,)

PRESENT.

HUGH HAMERSLEY Esquire *Chairman.*

The Reverend RICHARD PRETYMAN.

JOSEPH JOHN HENLEY Esquire,

and

GUY THOMSON Esquire.

Justices of Oxfordshire.

THOMAS LEINSTER GOODLAKE Esquire.

Richard

RICHARD TULL Esquire,

HENRY LANNOY HUNTER Esquire,

and

GEORGE BARKER Esquire.

Justices of Berkshire.

The Mayor of Oxford [THOMAS RANDALL Esquire.]

WILLIAM THORP Esquire.

RICHARD JAMES SPIERS Esquire,

and

JOHN TOWLE Esquire.

Justices of the City of Oxford.

and

WILLIAM SILVER DARTER Esquire.

A Justice of the Borough of Reading.

Resolved that the following

REPORT*

of the SUPERINTENDENT be printed and circulated.

TO THE COMMITTEE OF VISITORS.

GENTLEMEN,

The health of the Asylum in the year 1859 has been equally good with that of former years. The only period of any prevailing illness was the month of February. There always exists in such Establishments many decrepid persons whose strength scarcely supports them in life, and the Committee have not once met during the year without some decease being reported. The mortality of the year was however, rather below the usual average. The death of one Patient was caused by his own act ; apparently an attempt to escape.

---

* RULE 25—[of the General Rules of the Asylum.] The Superintendent shall submit to the Committee of Visitors, at their first Meeting after the Oxfordshire Epiphany Quarter Sessions annually, a Report in writing, of the general condition of the Asylum, and the number and character of the Patients ; distinguishing the numbers who have been received and discharged as cured ; the number of re-admissions ; the number employed, and in what manner ; the deaths which have occurred in the preceding year, and also the total number of discharges, cures, and deaths since the opening of the Institution, and specifying the sexes in each statement ; with such other facts as the Superintendent may think desirable, or which the Visitors may have suggested.

No suspicion was entertained of his ability or disposition to make much exertion ; he had however expressed desire to return home. On the occasion in question he was seen by a Patient climbing to the upper sash of a window in a Bath room on the first floor. Alarm was given to the Attendants in the ward who were putting Patients to bed. Before however, they could reach the window or observe what was occurring, he had fallen to the ground on the outside. He was aged, feeble, and stout ; and could not have strength to regulate the balance of so great weight in getting over the sash, or mind enough to preconcert a safe descent. The fall occasioned a fracture of his skull, and rupture of the aorta near its emergence from the heart. The internal hœmorrhage occasioned death in a few minutes. An inquest was held by the Coroner in this case, when a verdict was returned in accordance with the fact. No other inquest has been held during the year.

Escapes were effected by four men, during the Year, two of them by windows of the lower wards ; and two from the garden in the working

hours. These Patients reached their own homes. Other Patients have wandered from the garden which, being unfenced, is easily done and is generally without danger. Neither of these was absent at his usual meal hour. A Female Patient also, who was considered to be convalescent, took advantage of the dance in the open grounds at Midsummer when Patients, Attendants, and Neighbours mix at a somewhat public entertainment. She reached the City of Oxford, where she was recognised by the Police and brought back. Her excitement produced a relapse of three or four months duration ; but she has since been discharged by the Visitors as cured. The longest period of absence in either case was forty hours ; and embraced two nights.

The proportion of Discharges of Patients is in fair comparison with former years. Every Patient of whom it was known that the chargeability was fixed in another county has been removed to the Asylum of that county.

The most important incidents of the year have been in relation to the number and character of

the Patients admitted. The number 142, (of whom 69 were men and 73 women,) approaches to the admissions of 1857, when 70 Male and 83 Female Patients were admitted. It has been hoped that, the Asylum having been open some years, the Parishes must have sent to it all the long standing and most hopeless class of Patients. The admissions of the last five years have been as follows :---

In 1855, 102. In 1856, 119. In 1857, 153. In 1858, 118. In 1859, 142. Of those classed as more than 2 years insane

	Admitted in the Year.			Of the total number resident in the Asylum in the year.		
	M.	F.	TOT.	M.	F.	TOT.
1855	11	14	25	161	222	383
1856	18	14	32	167	237	404
1857	19	12	31	182	254	436
1858	22	15	37	187	262	449
1859	28	26	54	215	275	480

Of the 54 admitted in 1859 more than three-fourths were Epileptic or Paralytic ; and the remainder were either weak from youth or by

repeated relapse. It has appeared as though the approach of general Paralysis is now more commonly recognised, and more constantly sent to the Asylum for the care that is requisite for the remaining period of life. Such cases are very numerous in our wards. Their helplessness and decrepitude is appalling, and it will be readily understood that the maintaining of cleanliness and kindly nursing, with a wholesome state of their wards, is amongst the greatest difficulties of Asylum management. A period of two years was at one time assigned as the utmost limit of life in such cases. It happens, however, that the progress of decay is not uniform, and life is sometimes much prolonged.

The number of Re-admissions within twelve months of discharge from this Asylum resembles that of former years. Of the Re-admissions after discharge at more distant periods, 4 persons had been absent 5 years ; 10 had been absent 2 years; and 5 for 1 year.

The number of Patients in the Asylum on the 1st and 2nd of January was lower than at any

subsequent period. The Visitors directed their attention at their earliest meetings to the possibility and mode of relieving the accumulating numbers. Ultimately arrangements were made with the Visitors of the Asylum for the County of Buckingham, at Stone, near Aylesbury, for the temporary accommodation of 12 Patients in that Asylum. A selection was made of Patients in fair health, who, by convenience of residence, could be most easily visited in that Asylum by their friends; or who, being unvisited in this Asylum by friends, would not involve others in the inconvenience of the change. The arrangement is for a fixed number; and the Visitors resolved that every case of recent attack, of persons chargeable in these Counties, should be brought to this Asylum in the first instance. Accounts have been received of these Patients occasionally. They continue in fair health, and are reported of satisfactorily.

The number of Patients in the Asylum on the last day of the year being 216 Male and 276 Female (492 total,) it is probable that the state

of the Asylum will occupy much of the attention of the Visitors in the now current year.

It seldom transpires in the Asylum that the Patients brought to it were not previously Paupers.

Applications are more frequently received from Ratepayers who cannot afford the charge for maintenance in a Private Asylum. Unsoundness of mind occurs more frequently than in the case of those who are sent to Asylums. The loss of hope of speedy recovery, and the inability to give the requisite attention; or the exhaustion of means by a previously debilitating ailment necessitate the Asylum. Its more early use is the remedy usually recommended, and it is immediately made manifest that a much larger number of persons need the remedy than was anticipated.

The establishment of District Infirmaries, under the management of efficient Boards of Health, in which debilitating disease might have longer, more perfect, and more nutritive treatment before Insanity is developed; appears to be a self-suggested remedy.

I have the honor to be,

Gentlemen,

Yours' most respectfully and obediently

WILLIAM LEY

Superintendent.

Littlemore,
January 26th, 1860.

☞ The Annual Statement of Accounts by the Clerk of the Asylum is appended.

APPENDIX.

Summary of Patients for 1859.

	M.	F.	T.
Remaining in the Asylum, December 31, 1858.	208	266	474

Obituary of Males, 1859.

Name.	Age.	Duration of Insanity.		Cause of Death.
		Prior to Admission	Subsequent to Admission.	
T. S.	41	3 years.	6 months.	General Paralysis. Epilepsy. Brain tough. Fluid in the Ventricles. Emphysema of the Lungs.
C. S.	73	3 weeks.	9 days.	Fever. Epilepsy. Brain congested. Fluid in the Ventricles.
W. B.	63	10 years.	12½ years.	Phthisis. Epilepsy. Brain congested. Tubercles in the Lungs. Hypertrophy of the Heart.
D. T.	35	2 years.	2½ years.	General Paralysis. Brain tough. Fluid in the Ventricles. Emphysema of the Lungs.
J. G.	51	4 months.	2½ years.	General Paralysis. Old cerebral disease. Emphysema with consolidation of the Lungs.
G. F.	58	unknown.	1½ years.	Bronchitis. Cerebral softening. Hypertrophy of the Heart.
A. T.	51	2 years.	13 years.	Fever. Softening of the Left Optic Thalamus. Emphysema with congestion of the Lungs.
J. W.	54	10 months.	1 year.	Fever. Congestion of the Brain. Fluid in the Ventricles. Emphysema of the Lungs.
S. P.	38	2 years.	6¼ years.	Epilepsy. Congestion of the Brain. Emphysema of the Lungs.
A. S.	38	6 months.	3 months.	General Paralysis.
J. H.	66	3 years.	2 years.	Gangrene of the Right Lung. Congestion of the Brain.
R. R.	68	1 year.	1 year.	Rupture of the Aorta, Fracture of the Skull. Inquest.
W. H.	60	8 days.	10 days.	Fever. Conjestion of the Brain. Hypertrophy of the Heart. Emphysema of the Lungs.
C. W.	21	9 days.	5 days.	Cerebral softening. Hypertrophy of the Heart.
D. H.	40	unknown.	5 years.	Phthisis. Tubercular consolidation with vomicæ of Lungs.
M. T.	35	2 days.	19 days.	Fever. Emphysema of the Lungs. Hypertrophy of the Heart.
A. S.	53	many years.	11 years.	Apopletic. Epilepsy. Old cerebral disease,
H. H.	63	some months.	1 month.	Ulceration of the Stomach.
J. C.	59	1 year.	2½ years.	General Paralysis.
R. R.	49	some years.	14 months.	General Paralysis.
T. H.	77	2 years.	5½ months.	General Paralysis. Old cerebral disease.
J. S.	68	3 years.	11¾ years.	Pneumonia.
T. L.	37	6 months.	48 days.	General Paralysis. Brain tough. Fluid in the Ventricles. Emphysema of the Lungs.

Obituary of Females, 1859.

Name.	Age.	Duration of Insanity.		Cause of Death.
		Prior to Admission.	Subsequent to Admission.	
J. J.	52	1 year.	40 days.	General Paralysis.
E. U.	60	unknown.	7¾ years.	Gradual decay. Brain anæmic. Hypertrophy of the Heart. Emphysema of the Lungs.
J. S.	34	10 weeks.	2¾ years.	General Paralysis.
M. G.	49	1 month.	1 month.	Fever. Congestion of the Brain and Intestines.
A. D. G.	33	10 years.	2½ years.	Fever. Brain tough. Fluid beneath cerebral membranes and in the Ventricles.
E. M.	40	40 years.	3 years.	Gradual decay Cerebral softening. Hypertrophy of the Heart.
E. B.	49	20 months.	36 days.	Paralysis. Neuroma of the Right 5th nerve, the size of a Bantom's egg.
M. H.	31	15 years.	5¾ years.	Fever. Brain congested. Lungs congested and Emphysematous. Hypertrophy of the Heart.
M. E.	76	3 months.	9½ years.	Gradual decay.
J. B.	33	unknown.	7½ months.	General Paralysis. Brain tough. Fluid in the Ventricles. Vomicæ of the Lungs.
M. C.	24	4 years.	4½ years.	Pneumonia. Hypertrophy of the Heart.
M. A. R.	70	1 week.	11 months.	Pneumonia. Epilepsy. Brain tough. Fluid the Ventricles.
H. F.	40	10 years.	9 years.	Epilepsy.
E. L.	54	3 months.	3 years.	General Paralysis. Brain rather soft. Ventricles distended.
C. T.	86	unknown.	5 years.	Gradual decay.
E. T.	18	2 months.	2⅔ years.	Emphysema of the Lungs. Chronic abcesses.
S. T.	45	3 months.	11 years.	Phthisis. Tubercular consolidation. Vomicæ.
S. W.	33	unknown.	3 years.	Apoplectic.
A. M.	43	1 month	14 months.	General Paralysis. Epilepsy.
J. C.	72	6 weeks.	9¾ years.	General Paralysis. Epilepsy.
H. L.	35	2 weeks.	10½ years.	Phthisis. Tubercular consolidation. Vomicæ.
E. B.	75	4 years.	13 years.	Jaundice. Brain congested. Emphysema of the Lungs. Hypertrophy of the Heart.
E. A.	65	many years.	10½ months.	Epilepsy and Hemiplegia. Left cerebral hemisphere rather soft. Fluid in the Ventricles.

LITTLEMORE ASYLUM,
